Saturday was announced as "Children's Day," they were there in full force, the bright uniforms of the two Deering Zouave companies of little boys, with the white dresses and bright ribbons of the girls made a pleasing picture as they filed up to shake hands with His Excellency Gov. Robie.

The morning exercises consisted of declamations, recitations and music by the children.

the sun rises with a different splendor in America and Europe. There is more clear gold and scarlet in our old country morning than in those of the new. It may be from habit, but to me the coming of day is less fresh and less spirited in the latter; it has a dusky glow and more nearly resembles sunset; it seems to fit some consequential, evening epoch of the world, as though the day were in fact not and merely in fancy, further from the orient of Aurora and the springs of day. I thought so then, by the railroad side in Pennsylvania, and I have thought so a dozen times since in far distant parts of the

Flour shows considerable strength and many of our large dealers anticipate an early advance, but to-day our figures are without quotable change. Corn is steady and a little firmer. Oats were easy in the week, but at the close a better tone prevailed owing to more encouraging reports from the West. A firmer tone has been developed in Pork, though we note no change in quotations. There is a good demand for Sugars at the recent decline. Apples and peaches are light.
